Galvanized Steel Crossover Ladder 5 Step 23-1/2 In. x 24 In. 500 Lb. Capacity Silver

MODEL COL-5-46-14-HDG

Industrial Ladders / Galvanized Cross-Over Ladders

PRODUCT OVERVIEW

In crowded industrial settings, sometimes the best way around an obstruction is up and over. Utilizing a crossover ladder allows the permanent pieces in the work area to stay in place while providing a more efficient option for personnel. The horizontal platform includes both upper and lower rails for complete staff security. Units must be anchored to the surface. During times of temporary use, the ladder can be knocked down for storage and shipping. Handrails have a safety yellow powder coat finish. Steps and platform have a durable hot dip galvanize finish.

KEY FEATURES

- Serrated steps for extra grip and safety
- Meets OSHA 29 CFR 1910.23 and ANSI A14.7 standards
- Ground legs include floor mounting pads
- 58 degree climbing angle
