Fork Truck Attachments / Loop-Style Fork Extensions

## PRODUCT OVERVIEW

Provide the extra support needed to lift long or large objects with a fork truck using a pair of fork extensions. Welded steel construction with cast steel tips. Powder coat yellow finish. OSHA regulations require that extensions are no more than one-hundred and fifty (150) percent of the existing fork length. Insert loop at the tip of the fork and slide it up at a forty-five (45) degree angle. Then, lay it down over the existing fork. The rear spacer makes loading pallets into rear of trailer conveniently and easily. Practical for pushing pallets two or three deep into a trailer. To be used with class 2 and class 3 forks only.
